# NEW!

After much hard work and research and help from the Big Lottery, the Friends have now launched their indispensable 24 page 'Guide to Telford Town Park and Nature Reserve'.

It is available from Spout Farm House and wherever the Friends have a display, for the introductory price of just **£1.50p**.

Get yours now!

All profits will go to the Friends to assist with their ongoing work in the Park.

## BUSY YEAR AGAIN FOR FRIENDS

2010 is proving to be a busy and active year again for the Friends.

Since the beginning of the year we have cleared the Crannog site at Grange Pool ready for the path to be laid which has now been done. This was partly thanks to the lads and lassies from the 'Community Payback' scheme who were carrying out Community work for errors committed in our society. Thankfully, they were able to do the heavy work of root removal and path levelling. Many thanks indeed to the West Mercia Probation Service.

We have also promoted the Town Park at 'Madeley on the Map' day outside Tesco's new store there, taken part in 'Dawley Day' and 'Hollinswood and Randlay Fun Day', had one Bat Walk already in May (another to come in August) and attended numerous meetings connected with the Park's Big Lottery bid and also the Southwater redevelopment scheme.

We have also assisted in erecting several bat boxes, to partly compensate for the disruption the building work will inevitably bring to Southwater soon. We shall also be erecting 20 bird boxes around the park for the same reason, as well as helping the bat & bird life proliferate in other areas as well.

We will also soon be involved in air and water quality testing for the OPAL project, part of a Lottery funded national scheme.

Then we shall be tidying up the twin tracks and monument area to ensure that the metal tiles do not get overrun with grass. If you would like to help us in any of this type of activity and would like to get out more and meet more people just give us a call or visit our web site. Telephone **01952-382340** or visit:

**Blue Pool.** One of the most beautiful lakes in the park. It was originally a large quarry where clay was extracted to supply

the Randlay brickworks, which were situated at the northern end of what is now the lake. It acquired its name from the colour of the water that was created by the natural elements in the clay turning the water a blue colour. The brickworks were demolished in the 1960's and Stirchley Avenue built over the railway embankment.
